Notifier Battery Calculations HPFF8 and HPFF12 Hotfix

This hotfix includes 2 updated battery calculation sheets for the HPFF8 and the HPFF12. Updates include 64-bit compatibility for both sheets.

This update includes the following files:

1) HPFF8.xls (Updated HPFF8 Battery Calculation Sheet)
2) HPFF12.xls (Updated HPFF12 Battery Calculation Sheet)
3) Notifier Battery Calculations HPFF8_12 Hotfix.pdf (This File)

Instructions for using the updated HPFF8 and HPFF12 Sheets (HPFF8.xls and HPFF12.xls):

- First make sure you have the latest version of the Notifier Battery Calculations installed on your computer (version 3.0)
- Navigate to the installation location of the current HPFF8.xls and HPFF12.xls files. The default installation location for these files can be found in the following folder C:\Program Files (x86)\Notifier\Notifier Battery Calculations.
- Take the HPFF8.xls and HPFF12.xls files enclosed in the zip file and overwrite the current files that are currently in the Notifier Battery Calculations folder. This will replace the installed versions with the new versions. If prompted click Yes to overwrite the existing files.

This will update the HPFF8 and HPFF12 battery calculation sheets so that they will be able to be used in Microsoft Office 64-bit version.

Any questions or problems contact: HFS.Interactive.Media@Honeywell.com for support.
